ANNUAL REPORT

2024/25

“

When we lost everything due to gang violence in my neighborhood, I didn't know what I would do with my children. We were all traumatized. Finding The Children's Academy felt like finding light after darkness. Here, excellence is not just a word. It's a way of life. School leaders are caring and wise, discipline is guided by kindness, and learning grows from love and respect. The spirit of Konbit makes us family. In this school, we found not just education, but hope.

~ A parent of four Children's Academy students

A NOTE FROM OUR CO-DIRECTORS

Dear Friends - This past year tested Haiti beyond measure. An estimated 1.4 million people—half of them children—have been displaced, and more than 1,000 schools have closed their doors, many taken over by armed gangs. Yet, despite these dark times, **Haiti Partners schools remain open, standing strong as beacons of hope and resilience, serving more than 1700 students each school day.**

Our flagship school, **The Children's Academy, continues to provide quality education to over 500 students.** Against all odds, our dedicated team has continued teaching, nurturing, and protecting children who deserve stability and a brighter future. As a result, **for the 2nd year in a row, 100% of our 9th graders passed the National Exams, an extraordinary accomplishment anywhere in Haiti today.**

Now's the time to lean in more than ever. The impact is profound. Life in Haiti is growing harder—

safety isn't guaranteed, and electricity, gas, and healthcare are increasingly scarce—yet our teachers remain steadfast, educating and caring for every child who walks through our doors. Because each student carries the hope of a nation on their shoulders, we cannot, and must not, stop now.

We invite you to lean in and give generously to sustain this mission of helping Haitians change Haiti through education. We are growing something powerful, rooted in faith, courage, and community. Thank you for supporting students, families, and communities in Haiti.

With heartfelt gratitude,

Merline and John Engle
Co-Directors, Haiti Partners

SCHOOLS PROGRAM

503 pre-K through 10th-grade students benefitted from an inspiring, student-

centered, changemaker education at The Children's Academy as the school launched its 10th grade, Haiti's first year of high school. **Cooperating together in *konbit***, students, parents, teachers and community members worked throughout the year **planting hundreds of trees** in the school community, **organizing community meetings** to discuss school safety and other vital issues, and **doing wellness visits for over 300 students**. Additionally, for the 2nd year running, **100% of Children's Academy 9th graders passed Haiti's National Exam**. This is an extraordinary achievement in Haiti where a typical passing rate is around 70%.

119,743 service hours were provided by parents and secondary students at The Children's Academy. Parents engage at the school doing a variety of important tasks through service hours: working the permaculture gardens, tending school grounds, helping in the social businesses, assisting teachers, serving as community health agents, and more.

45 parents graduated from Community Change Groups in July. Community Change Groups strengthen families and protect the vulnerable through ongoing training for parents in Child Protection and Gender Equality. Parents learn the skills they need to be more loving to their kids and each other. This year's module focused on the protection of children through positive discipline and "love in action."

For the 2nd year in a row, 100% of Children's Academy 9th graders passed the National Exam. In a country where the average passing rate is about 70%, this is a truly extraordinary achievement.

276 students received technology education twice a week at The Children's Academy, representing all students 3rd grade and up. Students work in the on-site computer lab and learn both the basics for how to operate a computer, but also how to do things like digital art, and English, French and Spanish language learning.

1198 students at our six Partner Schools received student-centered education thanks to training and support made possible through your partnership. In addition to learning Haiti's National Curriculum - which includes traditional subjects like math, science, and history - Partner Schools also engaged students in arts education (including learning to play instruments), gardening, creative writing, meal programs, Village Savings and Loan groups, and more.

“

WHY I THINK SUPPORTING HAITI PARTNERS IS MORE IMPORTANT NOW THAN EVER

In the midst of extremely difficult circumstances, Haiti Partners continues to be a beacon of light for students and families. As I consider the massive challenges facing our world, I believe it is more important than ever to practice hope by supporting organizations that have not wavered from their commitment to people, communities and long-term change. Haiti Partners is that. When I consider the success of the students and the commitment of the team, I am profoundly inspired. I consider it an honor and privilege to participate in the work through the flow of gift.

”

For 2nd year in a row: 100% of Children's Academy 9th graders pass National Exam!

“

What makes me so happy is that we all passed—no one left behind. We feel so blessed that our school can work with us and send us with confidence. We are eternally grateful to our parents, teachers, and Haiti Partners, and know how lucky we are. We are also grieved and saddened for all the students of other communities ravaged by gang violence. While we celebrate, we keep all kids like us who were not able to take the exam in our hearts.

~ Ninth grader, Valentina
